**Technology Center 2100**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, Virginia 22313-1450

Pursuant to the duty of disclosure under 37 C.F.R. § 1.56, the information identified on the enclosed PTO Form 1449 is disclosed to the Examiner for consideration in connection with the above-identified patent application. A copy of each reference on the PTO Form 1449 is included herewith. For the sake of reducing the amount of paper, copying costs, and shipping costs, copies of the U.S. patent documents are included herewith on two enclosed identical compact discs (CD's), labeled "Copy 1" and "Copy 2." The references on the CD's are all in the same format as the U.S. patent references as provided by the United States Patent and Trademark Office website, i.e. the Adobe Acrobat format (PDF) compatible with a PC running an MS-Windows® operating system. However, if the Examiner needs paper copies of the U.S. patent documents, the Examiner is requested to call the undersigned at the number provided and we will send paper copies to the Examiner.

The references are known to Applicants as being generally related to process plant systems. The undersigned, however, has not reviewed these references as to their relevance in the present application. In an abundance of caution, Applicants submit these references and respectfully request that they be considered during the prosecution of the present application.

This Third Supplemental Information Disclosure Statement is being submitted before receipt of a first Office Action on the merits, and consequently should be considered by the Patent Office without payment of a fee. See 37 C.F.R. §1.97(b). However, if any additional fee is required for the consideration of this information, the Commissioner is hereby authorized to charge such fee to Deposit Account No. 13-2855. A copy of this paper is enclosed herewith.

Respectfully submitted,

By:
